ated Press Leased-wire Service.

CHICAGO, Jan. 8.—Chicago represent tives of the two biggest plate-glass con panies in the United States have receive notice that the price has been advanced 20 per cent., the figures going back to those fixed October 27, but which were subsefixed October 27, but which were subsequently cut on account of a disagreement at a meeting held by the companies' representatives at Cleveland, December 20.

The reinstatement of the price seems to indicate that the plate-glass companies have come to an agreement, and presages the purchase by the Pittsburgh Plate-glass Company of all the other plants in the United States, and the formation of a plate-glass monopoly. In fact, some Chicago jobbers were willing to say that they thought the purchase was already made.

IT MADE PHELPS GASP.

SAN FRANCISCO, Jan, 8.—(Special Dispatch.) A Sacramento special says that all interest today centered in the question whether there would be any opposition to the inauguration of Budd. Old Timothy Guy Phelps, who acted as the leader of th Republican faction in the Assembly that wanted to contest the seating of Budd, thought that he could get enough members to vote for a recount, but he was paralyzed by the arctic chill with which his proposition was received. He was proceeding to develop it with much enthusiasm and to dilate on the importance of preserving the purity of elections, when he saw plain evidences of irritation among his audience. So he cut his speech short and presented his resolution, which fell with the proverbial dull thud. Then some one moved to postpone, and it was passed by so big a majority that it made cid Phelps gasp. Assemblyman Bulls of Los Angeles was one of the most active in working against a contest. So ended this abortive attempt to prevent the inauguration of the new Governor. It will never be heard of arctic wanted to contest the seating of Budd, tion of the new Governor. It will never

John Daggett, the mint superintenden appeared today. He still craves the suggestion of Senatorial honors. It will be embered that he used his position to win Democratic nominees for the Legisla-ture. When the Republican tidal wave drowned his Senatorial hopes, he deter-mind to secure a complimentary vote of his party. That is one reason why he is

ing of interest. The scene is quiet, and even the Golden Eagle is half deserted to-night. The inauguration of Budd and the fight for the vacancy in the Harbor Commission are absorbing attention.

Mr. Budd tonight gave the first intim. ar. Budd tonight gave the first intima-tion of what he proposed to do when Gov-ernor. He said he would not abolish any of the commissions that were of value. Both horticultural and viticultural commissions he favors putting under the im-mediate charge of Stanford University and the State University. He wants to remove all commissions out of politics. He enlarged on the necessity for economy, and declared every useless office would be

Late tonight here is a sensation over th report that Mr. Budd will remove all of-ficials appointed by Gov. Markham and confirmed by the Senate two years ago. There are many: State insurance co doners, harbor commissioners and pile mers. Mr. Budd declined to discuss the matter.

WILL KNOW WHERE HE'S "AT." SACRAMENTO, Jan. 8.-There is every probability that before tomorrow night the Republican members of the Legislature will have declared their intentions, and that Governor-elect Budd will know just what opposition he will have to combat in order to become the chief magistrate of

When the Republicans of the Assembly met in caucus this morning there was a decided inclination to settle the conten-tion then and there. Timothy Guy Phelpi was on hand with his concurrent resolu-tion providing for the appointment of non-partisan committee of five member non-partisan committee of five members from each house to investigate the recent gubernatorial election, and providing also that Mr. Budd be prevented from taking the oath of office pending such investiga-tion. The adoption of this resolution, according to the programme of the Republi-can State Central Committee, was to be the preliminary step in a gubernatoria

But Assemblyman Phelps encountere decided opposition. The sentiment of the caucus seemed to be against a contest. An present on the Phelps resolution, but the attempt failed. The somewhat stormy neeting ended abruptly by the members meeting eneed accupity by the members in opposition to the resolution forcing an adjournment, against the wishes of Mr. Phelps. The vote was 43 to 2. The nine votes are said to about represent the Phelps following. The caucus adjourned

subject to the call of the chairman, Assemblyman Wade.

Soon afterward Mr. Phepls stated that his resolution would not be brought up again, and it was talked about the corridors of the capitol that the contest had been abandoned. Mr. Budd's friends were quite jubiant for a time. They were soon made anxious again, however, when the Republicans voted down Mr. Scawell's resolution for a meeting of the Legislature in joint session tomorrow to canvass and publish the returns of the vote for Governor and Lieutenant-Governor. The delay enforced by the Republican Senators was clearly against Mr. Budd. It was suspected that the Republicans were browing some new trouble, and there was no suiprise when the Republicans of the Assembly were called into caucus again at 3 o'clock.

Mr. Phelps's resolution was again

Mr. Phelps's resolution was again brought up, and there was another storm; brought up, and there was another stormy meeting. Mr. Brusle of Sacramento, Mr. Phelps and a few others urged the caucus to favorable action on the resolution. The opposition was even more pronounced than at the morning exercise. opposition was even more pronounced at the morning caucus. The opponents o the resolution went so far as to prepare a resolution declaring it the sense of the valueus that the Senate and Assembly ould meet in joint session at noon to morrow to canyass the vote for Governo and Lieutenant-Governor. This was vote down. Mr. Thomas of Nevada did no favor the Phelps resolution. He urged that there be no more delay and that the authors of the resolution, if they still desired to press it, should introduce it in the Assembly and let it pass or be de-feated. His plan was also voted down.

Mr. Powers, chairman of the San Fran cisco delegation, seemed to express the sentiment of the majority. He counselled that the caucus should await some action on the part of the Republicans of the Senate. This plan was finally adopted, and a committee consisting of Messrs. Powers, Thomas and Phelps was appointed to confer with the Senate caucus, which had been previously called for 8 o'clock ,and urge the Republican Senators to enter a joint caucus to be held at noon tomorrow for the purpose of taking final action on the gubernatorial question.

The Republican Senators were in caucus

tonight from 8 o'clock until 10. They the Assemmbly caucus. The consultation lasted over half an hour. When the mem bers from the Assembly withdrew, George C. Ross of Redwood City and Edward K. Taylor of Alameda, members of the sub-committee appointed by the Republican

committee appointed by the Republican State Central Committee to inaugurate a contest, were called before the caucus. They, were in the caucus-room an hour and explained in detail the method by which they propose to contest the election of Budd. They presented their proposed bill under which the vote of San Francisco bill under which the vote of San Francisco could be thrown out, in the event of a hurried legislative investigation as proposed in the Phelps resolution and a report that fraud had been perpetrated and asked that the proposed law be enacted. Soon after the withdrawal of Ross and Taylor the caucus adjourned. The participants were piedged to secrecy.

Calvin McNab of San Francisco, who is a close friend of Budd and was with the

close friend of Budd and was with the elect tonight, declared at a late permit the vote for Governor and Lieuten ant-Governor to be canvassed and pub-lished at a joint session of the House and Senate to be held at 2 o'clock on Thursday, and that this agreement would be made known tomorrow. He had it from Timothy Guy Phelps, he said, that the plan of contest had been abandoned and that Budd would probably be inaugurated on Friday. Notwithstanding these assertions Lawyers Ross and Taylor declared that their fight has not been lost.

THE SENATORIAL CONTEST. SACRAMENTO, Jan. 8.-The Senator ontest between the forces of Perkins and De Young is still being waged under cover There is an unusual dearth of Senatoria talk among the legislators. Voorhies, evidently desiring to prevent the organization of the two house for business moved to lay this motion on the table. The Democrats, who are anxious to have the vote for Governor officially declared, urged the adoption of Senator Sea-wall's resolution. It was laid on the table, however, by a vote of 22 to 17; all demo

Mr. Carlisle remained in Speaker Crisu's private office throughout the afternoon and saw those most active in support of the him the doubt the House managers had as to the passage of the bill.

Mr. Carriale was apparently as hopeful

as ever, however, and expressed the belief that the bill would pass. Messrs. Hall of Missouri, Cox of Tennessee and other ac-tive supporters of the bill, pointed out to the Secretary the probable tactics of the combined opposition. There has been more financial talk about he Senate than at any time during the session. It has been stirred up a great deal by the recent publications in the newspapers of various schemes of currency reform and the near approach of a vote in the House on the pending bills. Senators who have predicted rather freely heretofore that there would be no currency legis lation talked in a more favorable way to day, and hinted at a possibility that some thing might be done, though they did no know how or what. Senator Jones of Arkansas, a member of the Finance Con tee, was asked if he was not of the opinion there was no possibility of currence "Possibility?" he answered. "Well, now

I will say this, that is my view. I don't think there is any probability of legislation. It is possible, however, that condi tions may arise which will bring men o very diverse views together on common crounds, and that legislation without polit ical or personal advantage, purely patriotic in its nature, might be enacted. Senator Jones said this feeling was shared by many other Senators. It is such sentiments as these which have been freely expressed today, and that gave an indication or inclination toward more

financial legislation as it seems possible.

There is one consideration which has not, so far, been taken into accounty, which may influence the Republican and Populist Senators to come together at the first meeting of the Senate after the 4th of March, for the reorganization of that body, and that is the effect that such a combination, or the failure. failure to make it, the opportunity being presented, would have upon the two par-ties in the Southern States. It is understood that the Southern rep-

resentatives of both parties are bringing this phase of the question to the atten-tion of the Senators, and urging that a organization, in which both parties would have representation in the distribution of patronage, and the arrangement of the committees, would be the best evidence it would be possible to give the South-ern voters of the effectiveness of this joint work in the late campaign, and the strong-est assurance possible to give them that the combination had not been made before the people merely for the purpose of hood-

"It is all rot," he said. "I suppose you mean the stuff about a financial measure to be offered in the Senate by certain Democratic Senators. There is nothing in it. Furthermore, in my opinion, there is no possibility of passing any financial bill in the Senates. We have no rules, and five Senators, can prevent action on any bill Senators can prevent action on any bill during this session. The only hope for prompt and efficient action was in the Democratic party and we failed at the outset of the session. Instead of changing outset of the session. Instead of changing the Senate rules so as to provide for stopping debate and then resolutely taking up the financial question and the tariff bills from the House, the Democratic caucus from the Senate deliberately refused to do anything of the kind.

FIFTY-THIRD CONGRESS.

SECOND SESSION.

WASHINGTON, Jan. 8 .- Senator Ransom of North Carolina, president pro tem, presided at the opening of the Senate today. Senator Morgan of Alabama offered a lution which was adopted, calling the President for reports, documents and other papers relating to the enforcement of regulations respecting the fur-seal fish-eries adopted by Great Britain and the United States to carry out the decision of the Paris tribunal of arbitration, etc.

At 2 o'clock the Lodge resolution went to the calendar and eulogies on the late Senator Colquitt began.

Mr. Brice of Ohio presented the confer-ence report on the Military Academy Appropriation Bill and it was agreed to.

The Lodge resolution, calling for infor-mation as to why United States ships-of war had been withdrawn from Hawalian waters, was then considered and Mr. Pal-mer of Illinois addressed the Senate. oce did the Senate, he asked, derive the right to call on the President for his reasons for executive acts? No such power existed and was it not impertinent for the Senate to make the demand? He main-tained that it was absurd to say that the Senate may demand the reasons of the President without at the same time having the right in some way or another to co

pel an answer.

Mr. Palmer referred to the anglor Mr. Palmer referred to the anglophob speeches which permeated the discussion so many public questions, and said that caused a sense of absolute shame as humiliation to find that the America Senate would discuss no question without bringing into it the dangers with which ware constantly menaced by the overwhelming power of Great Britain. He devote some time to a discussion of the exciping conditions in the Hawalian Island and the events which led up is and for commissioner Biount, who had been sent to the islands to inquire into the facts sarding the events there. The national as, the symbol of manhood and honor, ad been perverted, and made a symbol f oppression and outrage. It was placed gain on board the United States ship, here it was honored, and there it has smained.

Palmer having said that the Senator Palmer having said that the President had communicated the facts in the matter to the Senate as soon as they were ascertained, Senator Teller of Colorado interrupted to say that this was not sine case. He sent to the clerk's deak and had read that portion of the President's statements published yesterday regarding the visit of the Hawalian Royalist Committee, which begins with: "Having falled in my plans."

mittee, which begins with a raving lated in my plans."

Mr. Palmer resumed his speech and argued that the President had presented a most vigorous policy of non-interference in the affairs of the islands. This policy, he said, was right. He would deplore any responsible connection on the part of the United States with the government of the islands.

United States with the government of the islands.

Mr. Gray argued against the adoption of the resolution. This inquiry asked the President to give reasons for the motive that actuated him in performing a strictly executive duty.

Mr. Aldrich of Rhode Island referred to his remarks made some days ago respecting, the visit to the city of the Royalist commission from the Hawalian Islands, and said that he had yesterday received confirmation of the coincidence of dates in this matter from unexpected quarters. He therefore sent to the clerk's desk and asked that the President's statement on the matter published should be read. The clerk had finished only a portion of it when the hour of 2 o'clock arrived and the resolution again took its place on the calendar.

The regular order was then laid aside

The regular order was then laid aside, and the Senate listened to eulogies on the late Senator Colquitt. Remarks were made by Senators Hawley, Morgan, Turple, Hill, Pasco, Martin and Walsh. At 3:40 p.m. the Senate adjourned.

HOUSE:—The firs: business in the House today was a resolution from the Committee on Rules authorizing the Appropriation Committee to insert a clause in the Sundry Civil Appropriation Bill authorizing the transfer of the military prison at Fort Leavenworth. Kan., from the jurisdiction of the War Department of the Department of Justice. The opposition was made by Mr. Broderick of Kansas, who asserted that the question had been before the Military Committee and contended that the Hause was entering upon a proposed change for which he saw no reason.

The plan was applicated by Mr. Crutis.

Debate on the Currency Bill being re-Debate on the Currency Bill being resumed, Mr, Beltzhoover of Pennsylvania gave notice of an ameudment. It proposes a section to enable the Secretary of the Treasury to fund treasury notes which may remain in circulation after the first of August, 1885, which were issued under the act of February 25, 1889; July 11, 1862; March 3, 1863, and July 14, 1890, by issuing bonds to an amount not exceeding \$500,000,000, redeemable at the pleasure of the United States, after five years; payable twenty-five years from date with interest at 3 per cent., hayable semi-annually in gold. The bonds are to be of such denominations, not less than \$50, as the Secretary may determine, and to be sold at not less than par for gold or for treasury notes.

The members flocked around Mr. Sibley The members flocked around Mr. Sibley of Pennsylvania when he said: "If ever a rebuke was needed for one who has attempted to trample down the prerogratives of the people it is needed for him who has attempted to usurp this entire government himself. The time has come when there should be something more than brains, belly and 'brass' to this government." He referred to George III, and said it had been given out that anyone who voted against the bill would incur the displeasure of the King. Four days after the repeal of the Sherman act, members had told him that they had been promised a revenue collectorable if he would vote for repeal.

"The gentleman makes a very bold assertion," said Mr. Coombs of New York, and he asked Mr. Sibley to mention the names.

and he asked Mr. Sibley to mention the names.

"I went three days ago to a member and asked him to allow me the privilege of calling him up here," replied Mr. Sibley.
"He said," 'Mr. Sibley, you will place me in a bad position with my constituents,' but," continued the speaker," within ten feet of me sits a man who heard him make the statement that he had been offered a Federal office for his vote."
"But do you consider it fair," asked Mr. Coomps, with a perceptible tremor of his vote, "to make so grave a charge against the administration, and not give the names and places, in order to permit a defense?"

"Already the padlocks have been on my lips too long, and I intend to throw them off," said Mr. Sibley.
"When were padlocks put on your lips?" interjected Mr. Outhwaite. There was grat confusion and excitement following the question.

"I have not thrown them off before," continued Mr. Sibley, "because I hoped to see the administration redeem its promise, and I did not wish to utter a rebuke when there was hope of an honest perform-

when there was hope of an honest performmence."

Mr. Outhwaite had pushed forward, and again uttered the question: "Who put padlocks on your lips?"

"Mr. Sibley hesitated a moment, and, with increased carnestness, said: "Let me tell the gentleman that I am not talking today with men who believe in going to hell in a handcart, instead of to heaven, supported by truth. Let me tell him also that I em not addressing men who believe more in a bobtail flush than in a contrite heart." Shouts of applause and laughter greeted this statement.

Mr. Sibley proceeded to relate the experience of Dionysius, when he was again interrupted by Mr. Waite. "Was it Dionysius who put a padlock on your lips?"

of the tree of life. And if Andrew Jackson's spirit were to appear it would, he concluded, ick over the table and banish those spostles in disgust.

Mr. Cox of Tennessee followed with a careful argument in support of the bill.

Mr. Stone of Pennsylvania 4ld not think the pending bill would relieve the treasury situation, nor did he, in fact, believe the retirement of all greenbacks and treasury notes would check the demand.

Mr. Johnson of Ohio followed with a caustic speech in opposition to the measure. He said he thought he owed an apology to the public for speaking against a bill, which was as dead as this was. He denied that this bill was designed to take the government out of the banking business and asserted that no bill could be devised for sound currency issues which would not place them under the government. It was the office of the government, it was the office of the government to furnish money. This bill proposed to confer on banks without limit a right that could only be conferred on a monopoly. It gave them a monopoly, or it was a failure. He attempted to demonstrate that the bill would confer the same monopoly on the banks that the Bank of England and the Bank of France had. This was true, because the green-

for circulation the monopoly would be complete.

Mr. Johnson sketched a scheme by which a dishonest man, entirely within the terms of this bill, could make \$52,500 in two weeks by starting a bank.

"Could that not be done under the present law?" asked Mr. Springer.

"No, sir." replied Mr. Johnson, "because he must deposit \$114,000 worth of bonds to get \$90,000 in circulation.

"Could not the Canadian banks perpetrate the same frauds?" asked Mr. Springer, returning to the assault.

"No," replied Mr. Johnson, "because the Canadian system is a government monopoly."

oly."

Mr. Morse of Massachusetts made a brief speech in opposition to the bill, and then Mr. Bland, the leader of the silver Democrats of the House, took a stand against it. He spoke with great feeling. This bill, he declared, was an attempt to temporize with a great issue. He called attention to the Democratic platform of 1892, the pledge to settle the financial question on the lines of bimetallism. He raced the course of those who he alleged were carrying out a conspiracy, first, the speed of the silver-purchase law and now the consummation of their plans.

Mr. Bland predicted that if this bill became a law that the greenbacks, would disappear and to secure the gold standard the reserve would be entirely eliminated. In conclusion he protested against the bill in the name of outraged Democracy."

"Neither this House nor this administration is the Democratic party." said he, "and I appeal to the masses of Democracy to reorganize on the lines of principles of Jefferson and Jackson." (Applaiuse.)

Mr. Coffeen of Wyoming concluded the debate for the day in opposition to the bill, and at 5 o'clock the House took a recess until 8 o'clock, when, under a special-order of yesterday the bill prepared by the Pension Committee for the modification of, the pension laws was formally read. Mr. Morse of Massachusetts made

#### THE POOLING BILL.

Col. Morrison Invited to Explain His

Suggested Amendments.
WASHINGTON, Jan. 8.—The Senate WASHINGTON, Jan. 8.—The Senate Comittee on Interstate Commerce had the House pooling bill under consideration today, and postponed final committee action until next Tuesday, when the committee will meet again. The impressions today were generaly favorable to the bill and the belief was expressed, after adjournment, that the bill would be reported practically without amendment at the next meeting. The amendment suggested by Chairman Morrison of the Interstate Commerce Commission was discussed at some length, but the opinion seemed to prevail that if the bill should be amended in any way at so late a day it would fail because of antagonism in the Senate.

It was resolved, however, to invite Col. Morrison to be present at the next meeting and explain the amendment. The commission has the power to control pooling contracts before they take wifect. Col. Morrison says in his letter that there appears to be an impression prevalent that the bill as it stands gives the commission this supervision, but that is not true.

#### THE SUGAR CASES.

Mandamus to Compel Compliance

WASHINGTON, Jan. 8.—The District Court of Appeals today affirmed the de-cision of the District Supreme Court re-fusing to grant the Miles Sugar Manu-facturing and Flanting Company of Louisiana a mandamus compelling Secre-tary Carlisle and Internal Revenue Com-missioner Miller to proceed under the law missioner Miller to proceed under the law regarding sugar bounties, notwithstanding its repeal by the new tariff law. The case was brought as a test suit. An appeal to the United States Supreme Court is open to planters, the case having gone against them in all inferior tribunals.

The court, in an opinion by Judge Shepherd, held that the repeal of the sugar bounty provisions of the McKinley act by the new tariff law was immediate and complete and contained no exception or protection of any right held at the time of the passage of the law by virtue of the provisions of the McKinley act. Consequently there remains no duty that the respondents (Carlisle and Miller) might or could lawfully perform.

To Close Currency Debate. The general understanding was reached that the rule should fix a final yote for Friday, but the rule itself was not framed.

Mr. Sibley proceeded to relate the experience of Dionysius, when he was again interrupted by Mr. Waite. "Was it Dionysius who put a padlock on your Mr. Sibley made no reply, and proceeded to address himself to the details of the pending biff. He was frequently interrupted by questions, and when he deen given notice, he said when he deen given notice, he said that his time would not be extended, alternated time." Mr. Pence of Colorado asked that he be permitted to finish, but Mr. Outhwaite objected.

"We saw our distinguished executive after the election of 1892." Mr. Sibley continued, "hie himself away for recreation. Where on earth did he go? To the classic shores of 'Hog Island." The Bible says that when they are set at liberty each man will go to his own place. Where did he go? To Buzzard's Bay? And ever since the old ship of state has been bumping her nose into Hog Island and foundering in the water of Buzzard's Bay? And ever since the old ship of state has been bumping her nose into Hog Island and foundering in the water of Buzzard's Bay? There was a panic being precipitated by the vultures of the banks, Mr. Sibley shouted, beside which the last panic was as a gentic zephyr to a shricking cyclone. Funishment is being inflicted now and will become more and more grevious until endurance must cease and bilindness and prejudice, design and selfishness must all yield to the crushing force of natural laws. Acting under the direction of Clerk Buflham, Richard, his assistant, issued orders of commitment and Marshal Araold, if he feels so disposed, may send the prisoners to jail. The Marshal says, however, that he will take no further proceedings until he has direct orders from Judge Woods, to whom he will apply for instructions this afternoon. They hooted the ex-Pre-mier, Sir William Whiteway, who was formerly their idol, and then marched to where the Tourmaline is lying to receive the captain's answer to their petition of yes-terday. Capt, Sir Richard Poore, the commander, told them the matter was in the hands of the government. The crowd became exasperated and proceeded to the Ministry chamber, where the doors were

hands of the government. The crowd became exasperated and proceeded to the Ministry chamber, where the doors were barred against them.

Undaunted, the crowd set to work to force an entrance and doors and windows were soon battered down and ingress gained. The police attempted to check the work of destruction, the officers faring badly in the scuffie that followed, and the rioters were for the time being masters of the situation. Gaining entrance to the chamber they found that the members of the executive departments were absent. Later, the crowd again appealed to the Governor, but this was also ineffectual.

The mob their returned to the legislative building, but they were unable to force an entrance. They, however, remained on the grounds demanding relief and bitterly oursing the government. Hoping to pacify them, Prime Minister Greene appeared and addressed them. He promised that in two or three days extensive public works would be commenced, sufficient to give all employment through the winter.

His listeners refused to be satisfied with his promises and demanded that immediate relief be furnished. When they were told it was impossible to accede to this demand, the leaders held a short conference and it was decided to attack the stores on Water street, where large quantities of provisions were supposed to be kept. The first place attacked was Douer's. The place was soon broken open but the mob found no provisions there.

Then attention was turned to Steer's store, which was looted of its provisions. At this point armed police intervened and the mob was driven back at the point of the bayonet. Four men, Bushey, Brown, Coady and King, the promotors of the riots, were arrested. The crowd was inclined to attack the police for the purpose of vescuing the prisoners, but the officers prevented this by driving the mob back and then suddenly closing the gates. He found on his desk a Deadwood paper, containing the correspondence, which had been given out by Judge Dundy. The epistle is dated "Little Rock, Dec. 18, 1892." and signed "A. J. The letter concludes: "You seem to have a determination to annoy me in any possible way and take the advice of and following the directions of my enemies. you a considerate and honorable gentleman. I shall be glad when the term of your assignment expires."

Judge Dundy replied under date of Deadwood, December 26: "The production is a most remarkable one. As it is signed by A. J. Edgerton, Judge, I suppose it must be treated as a judicial order, judgment or decree. Otherwise you might think I had some intention of annoying you. But on honor I must say that had you not signed it as judge I should feel like treating it the same as I do such productions emanating from other cranks, and. after looking over the decree carefully. I have concluded that you are suffering more from mental infirmity than you are from physical debility. Because of this conclusion it may be that I ought not to write you at all until I have some evidence of the fact that you have a lucid interval."

Judge Edgerton appears to be somewhat worried after reading what had been published. "I decline to make a statement for the same reason as Judge Caldwell, when Dundy attacked him nearly two years ago, that it was unbecoming a judge to descend to such altercations." said Judge Regerton. "I will send the newspaper containing the correspondence to Judge Caldwell."

LITTLE ROCK (Ark.) Jan. 8.—A sensational cowhiding occurred at Pine Bluff last evening. H. L. Colburn, prominent in church and business circles of the city, was publicly cowhided by May Huggard, the sixteen-year-old daughter of Mrs. May Huggard, a highly respectable widow. It is alleged that Colburn sent a note to the girl requesting her to meet him at a disreputable house. Carroll Godfrey, an uncle of May, secured a shotgun which he held at Colburn's head, while May cowhided him in the presence of a large crowd.

A Rich Strike.

DEADWOOD (S. D.,) Jan. 8.—Mining circles are in a flutter of excitement over the announcement of a rick strike made in the Lackswanna mine, on Green Mountain, a few miles south of Deadwood. A twelve-foot vein has been uncovered, the ore from which, after many assays, gives returns averaging from \$1500 to \$3700 in gold per ton. The mine is ewned by James Collins and Curley O'Leary, two poor mineers, whom a chance "sopt" in one moment has placed in affluence.

Nebody the village by going to the postoffice carrying a Winchester rifle and two revolvers and a belt filled with cartridges. Nobody molested him and later his paper came out with the following announcement, referring to persons who would harm him:

"To all such persons we will say that we long ago learned to have no fear of leaden measages; in fact a good share of our life has been spent among people who generally shot first and blowed about it afterwards."

To the women he said: "Horsewhips hold no fear for us, and right here, old girl, let us rise to remark that if any of your sneaking, low-lived gang wish to try that kind of medicine on us again, we warn you that all it will cost them will be their own doctor bills. We have started to purge this locality and we will do it, or die in the attempt."

The better class of people at Ashiey are with the editor who announced himself last night as "Wild Bill," to the applause of the crowd. Mrs. Marshal Sickels and Miss Hasbrook were going to repeat the thrashing, but the editor's gun stopped them.

AT PHILADELPHIA.

PHILADELPHIA, Jan. S.—Jackson day was celebrated by the Young Men's Democratic Association for the fiftieth consecutive time by an elaborate banquet at St. George Hall tonight.

Vice-President Stevenson, who had been expected to be the chief guest, was unable to attend on account of his daughter's liliness. Congressman William L. Wilson of West Virginia was the guest of honor and the principal speaker. The participants drank "To the memory of Jackson" standing, after which James A. Stranahan spoke of the commonwealth of Pennsylvania. The next toast was "Party organization is the controlling force in national legislation; the preservation of great parties thoroughly organized is the best security for national liberty." and was responded to by Senator Stephen M. White of California, who said in part:

"To politicians we owe our legislation—the blessings of freedom. Historical evidence which is all one way, ought to be enough to prove beyond cavil that party organizations are the relief of the republic and that without such aid national liberty would be impossible. No, political parties do not lower the standard of patriotism. In good faith, we contend as loyal and honest antagonists. We do not spend each of our moments in party work. Our organizations are composed of citizens who are scattered over the entire republic."

"Moderne and just taxation is the best achievement of legislative action," was the subject assigned Congressman Wilson. He said in part:

"Protection in its real working is nothing but the old device by which the rich throw on the poor a duty whose labor in the legislative lobbies throw on those who labor in the field, the chief burden of supporting the common government, and in addition thereto exact from them, one or more days in every week of unrequited labor for their benefit and enrichment. If we have failed as a party in our recent effort to reach this high achievement, as we must admit that we have failed, let us searchingly and in the spirit of the most searchingly and in the spirit of the most honest inquiry, ascertain how far that fallure has been due to faithlessness in our own reflorts or in our ranks, and how far it was due to the intrenchment of privileges so strong and so inveterate that no first result could hope fully to dislodge. I am one of those who believe that our partial failure has been due to both causes, and, so believing, I find in our present reverses no cause for despondency or for party disorganization and apathy, but a higher call to dity, to a more advanced party policy, a more steadfast and loyal adherence to it."

Mayor Sutro was very conservative and suggested that the committee confine its meeting to the Huntington matter and collect evidence that would warrant him in calling the meeting. Later in the day another committee called on the Mayor and Sutro advised them to call on him with evidence and a petition. A petition will be circulated tomorrow, and the Mayor, if he believes that there is sufficient demand for the demand, will issue the calland for the demand, will issue the call.
A circular has been issued here, calling on those who received it to attend a upon those who received it to attend a public mass-meeting, at which it was proposed to demand the arrest of fluntington and the removal of United States District Attorney Knight. It is proposed to hold this meeting next Saturday night, and a committee, representing the Citizens' Defense Association, waited upon Mayor Sutro and asked him to preside. It is understood that His Honor will accept the invitation, and Attorney Montieth, who want the complaint against Huntington, is preparing data for the speakers. Barclay Henley will probably be one of the latter.

Last night, in referring to the excuse that night, in referring to the excuse to act in the matter of issuing a warrant for the arrest of C. P. #### THE ZECHOW MYSTERY.

#### It is Thought He was Killed on Account of Certain Claims.

VANCOUVER, (B. C.,) Jan. 8 .- The Zechow murder mystery daily becomes deeper, despite the fact that the police are gaining more information daily. The date that Zechow stayed at the Palace restaurant, Westminster, was October 9, according to the register, the night before the opening

of the exhibition.

A copy of the Seattle Telegraph of November 7 was found on the body. The deceased must have paid the city another visit about a month later. It is stated that among the papers on his body is one containing an offer to Zechow for the payment of \$20,000 if he would relinquish all claims to the estate. This strengthens the theory of murder to get him out of the way, as it seems that Zechow refused the offer. of the exhibition.

They Have Almest Reached a Satis factory Termination—Spain Secures a Substantial Advantage-The Cabinet.

WASHINGTON, Jan. 8 .- As indicated in washingtron, jan. s.—As indicated in the exclusive Associated Press cablegrams from Madrid the negotiations between the State Department and the government of Spain looking to the restoration of tariff on American products entering Cuba and Porto Rico has almost reached a satisfactory conclusion.

It is true that some minor details remain

to be adjusted, but little difficulty is expected in securing their settlement. It appears that, in conceding to the United States the benefits of the minimum tariff. Spain has also secured a substantial advan-tage. Her West Indian colonies ordinarily supply the United States with about 75 per cent. of the sugar imported into the country. Thus the sugar is liable to a duty of one-tenth of 1 cent per pound over and above the 40 per cent. duty imposed on Cuban sugar, and in consequence the Cuban planters practically receive a portion equal to the discriminating duty paid by Euro pean sugars, and it is believed will thu be able to control the market of the great est sugar-consuming country on the globe

THE CABINET. WASHINGTON, Jan. 8.—The meeting of the Cabinet today lasted fully three hours the Cabinet today lasted fully three hours, an unusual length of time. Foreign relations formed a greater part of the discussion. The satisfactory condition of the negotiations with Spain which warrant the belief that the old friendly relations will be resumed shortly, came in for a share of attention, as did the nature of the response to be made to the resolution adopted by the Senate cailing for information regarding the killing of the two Japanese students.

introduced the measure so that in the event of its expected rejection there would be a pretext for a dissolution of Parliament in order to obtain from a new Parliament increased grants for military purposes. The creason assigned for introducing the bill, that the existing penal law were inadequate, was not warranted.

Auer declared that such arguments were always used when it was intended to curtail the liberties of citizens. The Anti-Revolutionary Bill, he insisted, was solely directed against the Social Democrats. Auer concluded with the assertion the Agrarians, anti-Semites and Lineal Theologians could be easily struck by the bill. Not every one agreed that there was a growing tendency toward Byzantine rule, which betokens national decadency. The debate on the bill will be resumed tomorrow.

Japanese soldiers give themselves over, apparently without check from their commander, to indiscriminate massacre, carried out with every revolting circumstance of primeval barbarity. Troops of prisoners, tied together, were riddled with bullets and then hacked to pieces. Boats loaded with fugitives of both sexes and all ages received volley after volley. The streets were encumbered with corpses showing every ghastly form of mutilation which oriental crueity had invented.

"What, perhaps, is the strangest thing of all, showing the total, even if temporary disappearance of the European veener, is the absolute unconsciousness shown by the Japaneses officers of the effect of the brutalities upon western visitors at Port Arthur. After reaf fighting and real provocation the artificialties of Hiroshima disappeared like snow in the sun. It recalls the fable of the cat changed into the beautiful woman and who played her part to perfection until, in the midst of a banquet, a mouse was allowed to run across, the table. This appeal to her fundamental instincts proved too much for her laborously-acquired habits; the woman disappeared and the cat stood revealed."

LONDON, Jan. 8 .- (By Atlantic Cable.) In an interview today, Timothy Healy emphatically denied that he intended to ound a third Irish party, or to oppose the re-election of Justin McCarthy or other Nationalist leaders. He was only trying to prevent the assertion of a calamitous individual domination of the party, which denied the right of consultation to movements which afterward it was too late to

ments which afterward it was too late to repudiate.

He would persist in opposing every adventuresome party put forth as sanctioned by the whole party, when it only emanated from individuals unauthorized to speak in the name of the party. Healy concluded by declaring that he had always supported, and would continue to support McCarthy's chalrmanship of the anti-Parnellite section of the party, and would cordially resist any attempt to defeat the government in the address in reply to the Queen's speech opening the coming session of Parliament.

## The Personal Property Valued at a Surprising Figure. Associated Press Leased-aire Service. NEW YORK, Jan. 8.—Lawyer David

NEW YORK, Jan. 8.—Lawyer David McClure, who in March, 1893, was appointed by the Surrogate, appraiser to fix the value of the estate of Jay Gould at the time of his death, in December 1892, with a view to determining the amount of tax that should be imposed upon the personal property, has made his report, by which he finds the value of the personal state of the lets will control to be unward. estate of the late millionaire to be of \$80,000,000.

According to the law of 1892, of all per-sonal property in excess of \$10,000 1 per-cent. goes to the State, less the collection

cent. goes to the State, less the collection fee of the comptroller, which is 5 per cent. of the first \$50,000, 3 per cent. of the next \$50,000 and 1 per cent. on the remainder. This gives the State \$739,300, less the comptroller's fee of \$1999, which leaves \$798,901 for the State.

Among the claims against the estate McClure finds \$6,000,000 due the estate of George J. Gould for services, referred to in a codicil. This sum is reduced by \$375,000 spenf. by the testator in fitting up George J. Gould's house, and is deducted from the value of the estate. George Gould did not know of the estate. George Gould did not know of the existence of the codicil until a week before his father's death. McClure says that "the cadicil is to be regarded as evidences, of an existing obligation other than a codicil, but if the testator wanted to avoid the collateral inheritance tax he could have given outright to his son the millions which he gave him by the codicil.

#### PERSLEY BISHOP'S NERVE.

THE YOUNG MAN LOCKED UP AT THE CITY PRISON. Signed His Name to a Check on

Bank in Which He Had no Funds-His Other Exploits. A man named Persley Bishop was gathered into the City Prison yesterday after-

noon from Spring street and was booked by Officer Baker for obtaining money under false pretenses. He had obtained some money on a check drawn on the California National Bank for \$80, and to which he had signed his own name. On attempt-ing to cash it it was found that Bishop had no funds on deposit with the bank, so he was booked as "wanted" on the charge The police are convinced that the un tunate man is demented. As an illustra-tion of his peculiarities, it will do to men-

great quantity of worldly goods. To gain the wherewithal to exist while enjoying the wherewithal to exist white enjoying life these balmy days he duly drew up a check as mentioned, and, walking up to Chief Glass in his office, condescendingly declaimed: "My name is Bilshop. Here's my check. The bank is closed. I want money; you may have the check for a consideration of \$10. No? Well, make it one and I'll let it go at that. Ha! nothing. Humph! Good day," and he strode into Mr. Moffat's den to work him for a "V" But his moves were too "raw" for the chief of detectives, and Mr. Moffat sent him away sorrowing. The tireless Bishop worked the scheme all around, until the police got a case on him and put him into the restraining lock-up.

And then, Bishop is an ardent fancier of fine horseflesh, California blue blood, the kind that is running away from the world. In quest of this desire of his heart he has interviewed numerous local horsemen, and has airily spoken of this horse at a thousand, that at five, and so on, apparently regardless of the fact that there was an aching, dreary void where a healthy stomach ought to be. But then one must have life. life these ballmy days he duly drew up

yrill lead you steatthly to one side, away from the hearing of the gaping, vulgar crowd. Then, after certain devious and mysterious passes at the air that hypnocizes the anxious watcher, he approaches his mouth to the victim's ear and in the truly sleuth-like, flendish whisper used by the Vidocq of his last dime novel, he hisses truly sleuth-like, flendish whisper used by the Vidocq of his last dime novel, he hisses into the awe-struck listener's brain. "I work in the dark!" Ab, truly! so he does. That explains it all. Then he gives you a peculiar grip and explains that it is the sign of his order.

"What are you, police or private detective?"

"Police? Oh! What are you have a sign of the private detective?"

"Police? Oh! Why I represent the fa-

"What are you, police or private detective":

"Police? Oh! Why I represent the famous — Detective Agency at present, though anywhere I go I am a detective": and he explains to you the fine system of detective bureaus throughout the country, of which he is a member.

It's simple enough. The sharps who operate the "sell" rely upon the saw that "every second a sucker is born" and proceed accordingly. For instance, he will name it the Iowa State Detective Agency. They publish a paper full of vile cuts of criminals, accompanied by descriptions, and the reward the agency will pay for the fugitives' capture and retention. They work on the plan that every citizen is a militiamma and can do police duty when occasion presents itself.

They spread this paper broadcast, advertize in the sloppy sheets that the yokels they fish for invariably read, and finally induce a large number to become "detectives." The subscription is only \$1.50 a year for the "agency" paper, and a badge costs a little more. With these goes a beautiful "commission." ready for framing, or pocket-book service.

Then the "sucker," his mind inflamed with tales from alleged Pinkertons, with narratives of the doings of Nick Carter, the detective, Old Sleuth and High Hat Harry, the Head Hunter of Harlem, et cetra ad nauseam, sallies forth to conquer the criminal element. Occasionally one of them captures a crook by some accident that would have caused a professional's death. He gets half the reward, but his head bursts, like our hero's, and he is an object of pity. But usually he gets himself tangled up in some nasty mess, and is glad to sneak home after a thrashing from some indignant citizen, into whose private affairs he has been prying, or whom he has been "shadowing" for some fancied reason.

But the "agency" doesn't care. The sharps have the greenhorn's \$1.50 and other small fees, and that's exactly what they have been "pulling him on" for. They don't work for their health in this naughty, naughty world.

No doubt Bishop is a victim of theirs.

Police Shooting Match.

There are a good number of crack rife and pistol shots in the police department and there is quite a rivalry among the sharpshooters. Yesterday four of Sergt. Smith's watch, Sergt. Smith and Officers Tyler, Fifield and Fowle, challenged any four, the piek of the rest of the force, to shoot a match with them for a fine supper. Officers Rico, Hensley, Lee and Johnson accepted the challenge and the match will be shot at some date to be arranged later. The range will be the usual fifty yards, ten shots aplece will be fired, and 41-calibre Colt's revolvers will probably be the weapon used.

There is much speculation and some mild betting going around as to the result as all the men are straight shooters. Police Shooting Match.

#### HISTORICAL SOCIETY. The Begular January Meeting teresting Proceedings.

The Begular January Meeting—Interesting Proceedings.

The Historical Society held its January meeting in Judge Austin's courfroom Monday evening. Judge E. Baxter, president elect, delivered his inaugural address. He outlined the objects and work of the society and urged its members to renewed effort in advancing its interests. The only revenue the society has is derived from the small sum of \$2 admission fee, paid but once, and membership fees of 25 cents per month from each member. Yet, small as this fee is, the society has lost more than \$500 from the dilinquency of non-paying members, many of whom are abundantly able, financially, to pay their dues. The society returns full value for every dollar received. He urged the uniting with other literary and scientific societies through an associated or general committee, to promote historical, social and scientific work.

On motion of Maj, E. W. Jones, a committee of three was appointed to co-operate with similar committees of other literary and scientific societies in the city, to form an associated committee, whose duty it shall be to promote the interests of the various societies in their respective spheres of work, and to formulate some plan for building a public musaum. J. M. Guinn, H. D. Barrows and Mrs. M. B. Williamson were appointed on the committee.

Mr. Barrows presented a large photograph of William B. Osborne, an early resident of Los Angeles, who was instrumental in introducing from the East improved qualities of fruit. He held several important offices under the city and county sovernments.

Mr. Levering presented the first volume of Cassius M. Clay's autobiography; also a photograph of the old gentleman at the age of \$2.

Judge A. W. Blair presented an interesting and valuable paper on "John Charles Premont." He gave an outline of Fremont." He gave an outline of Fremont." He gave an outline of Fremont." #### BUSINESS.

FINANCIAL AND COMMERCIAL

OFFICE OF THE TIMES,
JANUARY 8, 1896.

The aggregate of the deposits in the
Los Angeles banks has been gradually
oresping up to the point where it stood
during the height of the boom and at the
present rate of progress it will take but a
short time to place it there. It is more
than a question, however, whether the
amount of deposits in the banks is a fair
indication of prosperity. It would probably be more truthful to say that Los Angeles city is prosperous because it numbers among its population many enterprissing men of means who invest their
money in legitimate enterprises and do
not lock it up in savings banks. It is said
that the per capita deposits in the savings banks of San Francisco are larger
than in any other city of the United
States. Yet, as we all know, San Francisco is not exactly a model of success and
prosperity at the present time. The object of the savings banks is to furnish a
safe depository for small sums that are
saved by persons of moderate means, until they accumulate sufficient to buy a
home or invest in some other enterprise.
These banks were never intended to take
care of large sums of money for capitallists who have not the enterprise or
courage to take legit mate business risks.
It is just these people who precipitate a
panic during times of financial doubt by
withdrawing their deposits. A good example of this was offered in Los Angeles
during the bank panic of 1893. Some of
the savings banks limit the amount of
money which can be deposited by any one
person. It is a good rule and should become general.

In a section like Southern California,
where there are so many enterprises which
await development and where it is easy
to make money earn at least 12 per cent.
without running any extra risk, there is
certainly no excuse for storing up large
sums in the banks.

COMMERCIAL.

Few people have any conception of the

GOMMERCIAL.

Few people have any conception of the difficulty which attaches to the obtaining of trustworthy quotations for products in Los Angeles. The reason for this is that there is no regular produce &change, such as exists in most cities of this size, where regular efficial quotations are made from day to day. Here in Los Angeles if a man is short on eggs he will often quote them a cent lower than the market, while if he has a big stock of them he will quote a cent higher, so that it often becomes a matter of striking; an average between the highest and the lowest in order to get a fair quotation. The same is the case with butter, vegetables and other produce. The remedy would be the establishment of a produce exchange, but it appears very doubtful whether we have yet reached a point where such an enterprise would be successful. It has been tried before but has failed. As in the case of a real estate exchange, the difficulty appears to be that there is too much mistrust among the dealers, and it appears impossible to get them to pull together. As in the real estate business, there are too many people who go into the commission business in Los Angeles as a "fiyer," in default of any other occupation, and who often stay in the business only a short time. Such people are a source of weakness in the market as they are ready to cut prices or sink commissions in order to do a little extra trade. Still it seems as if it should be possible to establish a produce exchange before long. The Times would be glad to hear from merchants on this subject and to aid in furthering such an enterprise, should it be deemed practical.

The orange market continues strong. The exchanges have not yet, changed their prices, but pressure will probably be brought to bear by members to induce them to do so. The regular annual dispute between the commission men and the exchanges is breaking out with its usual violence, each party expressing opinions of the other that are far from flattering. The Times will endeayor to steer clear of the rocks on both sides of the channel and give its readers the unadulterated facts. That the co-operative movement for the marketing of the orange crop is altogether an excellent and desirable thing for the growers admits of no doubt whatever, but it does not by any means follow that the officials who have charge of the affairs of the growers are altogether right in what they do. They are liable to make mistakes that may prove as expensive to the growers as the commission business is claimed to be. In such cases The Times will not be backward in calling attention to the facts, roar or no roar.

#### GENERAL BUSINESS TOPICS.

"It never rains, but it pours." For years one of the chief drawbacks of Los Angeles has been the fact that fuel—and consequently motive power—was so expensive that it was impossible to establish manu-facturing industries on an extensive scale. Now we have not only crude petroleum selling at the equivalent of about \$3 a ton for coal, but we are also promised several for coal, but we are also promised several other sources of supply that will be as cheap, if not cheaper than this. Among others is an enterprise for bringing power into the city from the enterprising little city of Azusa, which for some time past has been at work developing water power in the mountains. William Ferguson of this city has secured water rights in the San Gabriel Canyon which a company proposes to develop. Surveys have been made and maps and necessary papers filed in the United States land office securing the right-of-way. The distance from the source of supply to Los Angeles is twenty-five miles. It is claimed by the projectors that they have about 4000-horse-power which can be increased to double the amount if necessary. Eastern people are ready to furnish the necessary money, and, as the amount required will not be more than about \$20,000, the funds will probably be forthcoming at home.

There is another enterprise under discussion for the development of electric power from the Tejunga, north of Los Angeles. Before long we may expect to see salf a dozen such systems in operation, also a system for the supply of power through electricity generated by petroleum, and then there will be no further obstacle to the creation of great manufacturing industries in Los Angeles. One of the advantages which attends the use of water in this section as a source of supply is the fact that it can afterwards be used for irrigating purposes, so that the amount received for power may be considered as clear profit. Such investments as these are not likely to go begging long among capitalists.

Articles of incorporation were filed with other sources of supply that will be as

are not likely to go begging long among capitalists.

Articles of incorporation were filed with the County Clerk yesterday by the Los Angeles Pipe-line Company, formed for the purpose of developing oil and natural gas in this State, building storage tanks, pipe lines and refineries, etc., with a capital stock of \$500,000, of which \$70,000 has been actually subscribed. Board of directors, Charles Forman, L. A. Grant, Charles C. Carpenter, W. B. Wilshire and C. A. Marriner.

## NEW YORK MARKETS.

Shares and Money.

Issociated Press Leased-wire Service.

NEW YORK, Jan. 8.—Very little of interest or importance occurred in the stock market today. Speculation was at a low ebb and the trading was confined chiefly to the covering of short contracts. A firm tone prevailed at the opening and the first prices made were generally a fraction higher. Excepting for a slight reaction, the market was a rising one during the forenoon, but the volume of business was very light. Leading in the upward movement was Chicago Gas, which rose 14 feer cent to 75, and on the heavy purchases credited to inside interests Canadian Pacific sold up 14 and Lackawanna 1 per cent. The rest of the gains were merely fractional. Sugar moved within a narrow range during the morning and was unusually duil. After mid-day the shares became more active and moved erratically, but without any of the old-time vigor which marked the stock. An advance of % per cent. to 85% was made in the opening dealings, with a final sale at 83, which is % pere ent. up on the day. The general market during the atternoon was in the opening dealings, with a reaction to 87%, a recovery to 88% with a final sale at 83, which is % pere ent. up on the day. The general market during the atternoon was in the main strong, and prices moved up fractionally for the greater portion, but some of the early gains were lost altogether. A good tone prevailed in the late transactions and the market was firm at the close, at an advance on the day ranging from %6½ per cent. There was a moderate increase in the trading in the bond market today. Prices continued upward and material advances were recorded in pone issues. The total sales of the day wyre, \$1,101,500.

#### SAN PEDRO HARBOR.

It appears that after all, the present session of Congress is likely to expire without any action by that body in the direction of creating a deep-water barbor for Los Angeles and Southern Culifornia. The programme - Mr Huntington's programme—appears to be to defer all action by the present Congress and then arrange for another mittee to visit Southern Californext year. By that time the Relicans will control the Senate. The aree leading Republicans on the committee are all in favor of the Southern Pacific site, and Senator Frye, who has several times expressed himself most violently in favor of Santa Monis likely to be the chairman of that committee.

Senator Ransom is reported as saying he is heartily in favor of an ap-propriation, but that he sees no possiway to secure it this session; engineers have differed in their reports and members of the committee not decide without a personal inspection. This is not true. The reports of the government engineers, three times repeated, have all been strongly in favor of San Pedro. There been no government report in fabeen a private report to that effect from an engineer who is in the employ of the Southern Pacific Company, which report appears to have onsiderable more weight with certain members of the committee than do combined reports of the government engineers

Senator White is reported as saying that he has done his best to secure ection, but now has no hope of an ppropriation at this session, and that is no possible way of forcing ction on the matter at present. On contrary, Senator Quay says that bill lying in committee now could reported favorably at any time. may be that Senator White has

tone his best in this matter, but as The Times stated on Sunday last, is a general impression here hat it is within his power to set the sary machinery in motion. There several members of the commitwho are strongly in favor of the ple's site and ready to vote for an opriation at any moment, but naturally look to the Senator California-the Senator who s in Los Angeles—to take the altiative in this matter.

The people of Southern California, and especially the friends of Senator bite, will be pleased to learn that has at least placed himself on rec d on this question and thrown the it is the problem which confronts us, bility for further delay on the ther members of the committee by a strong final representation tion of this problem no easy matter. The Constitution provides for the

the harbor question. The present tariff imposes a duty of 40 per cent. on raw sugar, with one-eighth of a cent per pound additional on sugar above No. 16, Dutch standard and one-tenth of a cent per pound in addition to the above rate n all sugars imported from countries which pay an export bounty to their producers. It is claimed that the tariff war now being waged against the United States by European coun-tries is because of the discriminating duty of one-tenth of a cent per pound on sugar which has received the benefit of an export bounty. The prob able truth of the matter is that the retaliatory acts of Germany and other countries are inspired by the reimpo sition of a duty of 40 per cent. on raw sugar, which entered our ports free of duty under the McKinley The discriminating duty is used as a pretext, but the 40 per cent. duty is extremely obnoxious to the sugar-exporting nations, and is probably, as above stated, the underlying cause of the tariff war.

The idea is a good one. business throughout the country were conducted upon a strictly cash basis, there would be fewer failures, fewer losses, and more economical liv ing. Merchants could afford to handle goods on closer margins, hence the buyer would get the benefit of cheaper prices. It is a little singular, how ever, that this movement should have been started in Kansas, that hotber of Populism, which has for one of its cardinal principles the creation of a national lending bureau at Washington, so as to enable everybody to borrow all the money he chooses, at 2 per cent. interest, with the priv ilege of repayment when the corn and hog crops are ripe. While ostensibly negotiating fo peace, the Chinese government is said to be stealthily bargaining for additional war equipments. This looks very much like another one of those ways that are dark and tricks that are vain," for which "the heathen Chinee is peculiar." But the Japs hold the key to the situation, and China will pay dearly for every day's delay in securing peace. There is a strong and growing popular demand in Japan for a slice of Chinese territory as a part of the war indemnity, the prospects that this demand will be among the conditions of peace is growing.

Senator Lodge's resolution of in quiry as to why the government war-ships had been withdrawn from Hawaiian waters was timely. est, daintiest, brightest and cleverest actresses of the day, drew so light a house last night. When plays announced for the hour of 8 p.m. begin at that hour, and not close upon 9 o'clock, there will probably be a marked improvement in attendance. The present method is conducive to profanity, and must have a marked effect on the success of any attraction.

It is too bad that so clever a play—one so charmingly played as was "The Pasaport" last night did not tax the capacity of the theater. For it is one of the brightest comedies seen here since the halcyon days of "Wilkinson's Widows" its complexities, by the way, being reminiscent of that class of productions. But no other comedy creation has brought us so airy, butterfivey (if one may coin a word) and captivating a bit of feminimity as is the volatile dream of forgetfulness and utter vacuity. Sadie Martinot, as she appears in "The Passport." The play is the story of a pretty woman, with a memory not an inch long, striking out from Berlin for Russia, and forgetfuln her passport, a fact which she does not discover until she reaches the frontier. At this critical juncture a gentleman, who is traveling alone, but whose passport includes his wife, offers the use of it to his acquaintance of the moment, that she get into the domain of the Czar and reach her destination at Moscow.

Around this simple circumstance there is eventually enwoven and entangled a skein of circumstances that involves a dozen or so people in a very whirlwind of cross purposes. Miss Martinot, as the pretty traveler, is always the central figure, the solitaire which sparkles, spintiliates and glitters. Dainty, naive, gowned with the most fetching costumes, a picture in laces, furbelows and fluffly things that snuggle against her shapely figure with thistie-down caresses, she is quite the most fascinating bit of womanliness imaginable. Her conception of the role of the forgetful Mrs. Darcy is most quaint and characteristic. Her strugles to remember such things as even her own and her husband's names, her stares of vacancy, her utter lostness amid periods of crisis, and withal her winsome presence and her air of up-to-datishness makes her appearance one of the most unique and pleasing things that has happened on our stage.

Max Figman is a most clever comedian, and makes a splendid foll for the pretty little blunderheels who gets every one so entangled. He is quick and bright, and in this plece most happily cast. The remainder of the company is thoroughly pleasing and satisfactory, Sam Edwards

NEW YORK, Jan. 8.-Mrs. Hetty Green the richest woman in America, bobbed up at Police headquarters and passed fully at Police headquarters and passed fully two hours in the building, though the business that brought here there could have been transacted in as many minutes. She looked so shabby when she pushed her way through the swinging doors that Policeman Jordan was about to tell her to go to the house of St. Barnabas, adjoining the building, if she wanted assistance, but she took the breath out of him by snapping out: "I want to see Mr. Allen, Mr. Allen of the Bursau of Elections, and quick, too, for I have no time to spare."

She was told how to reach the burean on the second floor and ambled down the cowidor, using a gingham umbrella for a cane. She had known Chief Clerk, Allen for many years, and greeted him volubly. While she told him her errand, clerks in the office took stock of her make-up, which was unique. She wore a vari-tinted, green patched dress, which she said later.

She wore a brown waist and sleeves and a worsted sleeveless jacket, a rusty black summer shoulder cape, trimmed with lace and beads, and a beaded and feather-trimmed little old dirty bonnet. Her seal-skin nuff was almost bare of fur, and her black kid gloves had boles in them. Her shoes were the worst of the whole outfit. They were without laces, and the heels were run down on the side. Having transacted her business, for two hours Mme. Hetty sat at a long table, with a dozen clerks around, regaling them with stories and reminiscences of her past financial career.

The members of the committee were generally of the opinion that the question was of sufficient urgency to justify its immediate consideration, and no room was left for doubt that it would be taken up but for the general feeling that any action of the Senate committee or the Senate itself would be futile unless the House had already acted. It was stated that bills were already in course of preparation for the ready acted. It was stated that bills were already in course of preparation for the foreclosure of the first mortgage on the Union Pacific road because of default in the payment of interest, and the opinion was freely expressed that unless some action should be taken at this session the United States would fail to secure any return for its investment in the road.

Efforts will now be directed towards securing a hearing by the House, and it is stated that the House Committee on Rules has virtually agreed to give the Pacific Railroads Committee aday in the House, soon after the disposition of the currency bill.

WASHINGTON, Jan. 8.—The State Department has published an official report from United States Consul Roberts, at Victoria, on the seal-catch of the British Columbian sealing flet last year. The figures show the catch to be the largest ever made in a single year, and that the fear once netertained that the hunters would be seriously handicapped from the compulsory use of the spear has been overcome. The total Canadian catch was 94,474, and of those taken in Bering Sea, 11,705 were males, and 14,635 females. The catch in 1893 was 70,332.

In addition, thiff year 572 skins taken by American schooners were landed at Victoria, bringing up to 95,048 the total number of skins there landed. The sealers took 48,993 skins off the Japanese coast, 28,341 in Bering Sea, 11,705 off the Brittish coast, and 7487, off Copper Island. An intimation of further claims against the United States is found in the release of the selved schooners Favorite and Wanderer, without any formal investigation, and the prompt filing by their masters with Collector Milne of claims for damages.

W. A. Cheney, Esq., on behalf of John
C. Cline, took occasion to descant upon the
admirable manner in which his client had
conducted the office during the term just
expired, and intimated that Mr. Burr's
carelessness and lack of ordinary caution
its failing to acquaint himself with the
preliminary requirements, showed him to
be unfitted for the office.

Mr. Allen replied briefly to the effect that
his client was the choice of the people

At the close of the argument, the matter
was submitted to the board, whereupon Supervisor Hay offered another resolution,
which was unanimously adopted, as follows:

THE ITALIAN MURDERER.

#### DR. CHAPMAN'S MEETINGS.

INTEREST IN THE EXERCIS CONSTANTLY INCREASING.

Presbyterian Church at Both Afternoon and Evening

Said the speaker:

"The inference from yesterday's remarks, was that without the Holy Spirit Jesus was not fitted for his work. I make no distinction in the Trinity, yet I look at the invisible God in His purposes as the Father, and God in action as the Holy Spirit. In olden times Ged was manifested in the Angel of the Lord, later as Jesus. Whenever God acts it is the Holy Spirit that is the energy.

"You are all familiar with the story of the day of Pentecost. I want to draw, a few points from the story that will make you come into a rich abiding experience of the Holy Spirit. First, this coming of the Holy Spirit upon the disciples was not a gift peculiar to that special time and occasion. Christ will give to us what He gave to them. Second, it was an individual experience. Right here is the weakness of the church. We all say that we must have the Holy Spirit. Why don't we have thim? Because we don't individualize Him. We make His operation general. We do not look for His work in our individual eas a tongue of fre distributing itself to each one. So the experience must be each for himself today, and I am talking about the coming of the Holy Spirit in your personal heart. A Christian ought to be filled with the Spirit just as much as the sinner ought to be filled with the Spirit is tat as wicked for Christians not to seek Christ. Third, this was the privilege of all classes.

"Remember, that it is not the work of the Spirit in regeneration. It is not identical with being saved. God gives purification remeated "Retion a can well build."

"Remember, that it is not the work of the Spirit in regeneration. It is not iden-tical with being saved. God gives puri-fication, renewed affection, a renewed spirit, and Hisewn indwelling Spirit. This is re-generation. But there is a giving of the Spirit after a man has believed, it is a fullness of the Holy Spirit for service. It is a spiritual preparation for doing what God wants us to do."

EVENING SERVICE.

At the evening service, Dr. Chapman spoke from the words found in Acts xx, 26: "Wherefore I testify unto you, this day, that I am pure from the bleed of all men. For I shrank not from declaring unto you, the whole counsel of God." "Several things," said the speaker, "are implied, and some taught, by this declaration. One of these things is that there are always some to whom the measage of salvation is brought, who will be lost. This is an unpleasant truth, but it is also one which must be confronted. The Bible is full of it. It is also implied that not only will some turn away, but that it may

e our fault.

A SLIGHT BLOCKADE.

That portion of the system of the Los. One of the cars turning the curve at the corner of San Pedro and Fifth streets, got off the line through the switch not being fully open. Albeit the construction car was at once sent out from the power-house with jack-acrews and other appliances for replacing the car on the track, the four cars compressing this part of the system had congregated at the point of breakdown. After some little trouble the car was lifted back on the track and by making short runs schedule time was recovered.

Chairman Caldwell, who is mow in Manical settling matters with the Canadian Pacific, is having little diffculty with shat line, but the Grand Trunk is making considerable trouble. The Canadian Pacific is willing to live up to all the provisions of its agreement with the Western light, but the Grand Trunk wants a meeting of the trunk lines and of the New England lines on the subject of the differentials to be allowed to the Canadian Pacific. The Western roads are likely to oppose the holding of the meeting, as it will sopen up the entire subject of differentials, which they have just managed to get out of the way, after sirugging with it for months.

#### HER VALUE INCREASED

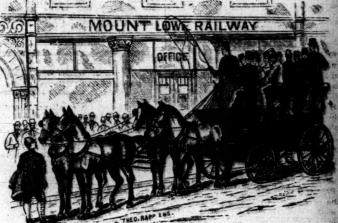

## J. T. Sheward,

113-115 N. Spring St.

THE new year is starting out with a large increase over a year ago. The stocks are in better shape. The overplus of undesirable goods have been sacrificed, and the new year will see large accessions to our present stock. The Muslin Underwear Dept. is showing new goods and nothing in the old. There has been a complete change for the better in every way. All the Muslin Underwear is of recent purchase. The styles are all new and, what is still better, the prices are lower. At the present time we are offering special inducements in night gowns and drawers, and are showing the largest assortment we have ever carried. Last season we made a change and put in several new lines of Muslin Underwear. The result was we more than doubled the Muslin Underwear trade. With the good start and the fine outlook for a big increase in trade this season we expect to again largely increase the trade in this department. You will find a large assortment of medium priced goods in stylish Under-wear at extremely low prices. All Dress Goods have been reduced in price to conform to the new tariff. Dress Goods are about one-third lower than they have been. We refer to all foreign woolens. This is where the greatest reductions have been made. Our Dress Goods Dept. showed the largest increase of any in the house last season. With the extreme low prices for all Imported Dress Goods we will certainly show a big increase this year. To close out the Cloak Department we are making big cuts in the prices of all gar-ments. We have an excellent line of the cheap and medium priced Cloaks, and with the reductions we are now making the sales will be the best of the season. The cold weather is yet to come. People must have Wraps. The prices are is your favor. There is no house in the city that will show you the prices we are now making in our Cloak Dept. We are starting the new year with the smallest stock of old goods of any house in the city. We will show the largest assortment of new goods at the proper time. For the past four months we have been selling out all undesirable goods and all goods that would be affected by the new tariff, and are now at the bottom for low prices.

## FINN WAS FICKLE.

Three Women Who Call Him Husband.

The Matrimonial Ventures of a Yardmaster of the Southern Pacific.

Two Families in the East, but This was no Bar to Contracting Another Marriage in Los Angeles.

Marriage is a lottery, it is said, and many people draw blanks, but it is not a common occurrence for more than one person to draw the same blank. And yet this is just what has befallen three women—all so far as can be learned, good and dutiful members of their sex—who have drawn the same identical blank in the grand lottery of marriage.

who have drawn the same identical banks in the grand lottery of marriage. While this is bad enough the situation is still further complicated by their not knowing their exact legal status—whether they are wives or widows—grass ones, of

course.

And this is the history of this matrimonial complication wherein one man is at one and the same time the hero of the heavy villian.

On New Year's day J. J. Finn, the day yardmaster at Los Angeles of the Southern Pacific Railroad, was united in marriage to Miss Lang, daughter of John Lang, who for a long time was proprietor of the hotel at Lang's Station in the Soledad Canyon. The marriage took place at the home of the bride's father on Pico Heights and, outwardly, everything seemed eminently proper. The bride really was not a Miss Lang, having been previously married to a man named Best, who was killed in the course of his duty while employed on the Atlantic and Pacific road. This marriage, to outward seeming such a good omen for the New Year, set the tongues of people wagging and resulted in Finn losing his situation, and leaving Los Angeles.

In brief, Finn is a much-married man he is a confirmed victim of criminalis matrimonialeusis, and of the three wives he has sworn fidelity to, it would puzzie the proverbial Philadelphia lawyer to tell which is the real, Simon-pure and entitled to a dead cinch on his wavering affections. At Fitchburg, Mass., there is a Mrs. Finn and four children, who bear his mame, the eldest of whom is a marriageable young lady. What broke up this first of Finn's families, no one appears to know, or whether the marriage was dissolved in regular legal fashion, albeit the opinion is general that no legal dissolution took place. Finn transferred his affections to a young lady having her home at Schenectady. N. Y., and, after casting her lot in with him, and experiencing various vicissitudes by flood and field, she accompanied him to Los Angeles. There have been four children as fruit of this marriage, one being dead. The eldest is almost 9 years of age. While in the employ of the Southern Pacific, Finn, with his family, lived in the district adjacent to the River Station, and boarded with Mrs. Walker, a lady who entertains quite a number of railroad men. While living there, both

or Miss Lang, as she was ordinarily termed—about the city. She didn't want to become involved in any matrimonial squabbles.

It is now nearly thirteen months since Mrs. Finn No. 2 went Bast, and the curicular could be a since Mrs. Finn No. 2 went Bast, and the curicular could be a since Mrs. Finn No. 2 went Bast, and the curicular could be since Mrs. Finn No. 3 into his matrimonial net. Miss Lang very often stopped with her sister, Mrs. Miller, who resides within feasy distance of River Station, and it was there that she was brought into contact with Finn.

The true inwardness of his experiences as a much-married man did not become known, even to his most intimate friends until January 2, the day after the nuptial knot was tied. A day or two previous a letter had been received from Mrs. Finn No. 2 from Schenectady, by a gentleman in the city, and he brought the delinquent to task. He asked Finn why he had not written to his wife during all the long and weary months, and what he meant by marrying Miss Lang while he had a wife and family in the East. The culprit explained that he had written, and that the last letter he sent contained an order for 340, but as it had not been acknowledged by his wife it must have gone astray. He explained, also, that he had got a divorce some time ago in Judge Smith's department of the Superior Court. The gentleman camly told Finn he didn't believe a word he said, but, on the contrary, felt certain in his own mind that he was lying. Thereupon Finn made a clean breast of everything—at least, he pretended to, and as no one was acquainted with the facts his word, so far, has to stand.

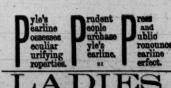

He stated that his Schenectady wife had been his wife only in name, for he had never been legally united to her. No, he was not aware that under the State law the woman he had lived with, recognized, and introduced as his wife and the mother of his children, was in actual fact his wife in law and in fact.

Rumors of Finn's curiously-complicated marital relations became bruited abroad, and reached the e

coming rather lurid in Los Angeles Mr. and Mrs. Finn left for the North to spend the honeymoon.

And now the aforesaid gossips want to know whether, now that Finn as a most cheerful hypocrite and liar, is entitled to the entire bakery, wife No. 1 at Fitchburg, Mass., ever had her marriage bonds legally released, and if not what about the status of wife No. 2, and more interesting still, the legal position of wife No. 3; Or, in the event of Finn never having been legally united to the wife No. 1, the Schenectady lady would, under the California State law, have a prior right on the affections of the too-loving Finn above that held by wife No. 3.

Altogether, it is a very pretty matrimonial tangle, and while giving the gossips a choice morsel to roll under their tongues, has inflated the current price of tar and feathers in the vicinity of River Station.

BAILROAD FRANCHISE MATTER TAKES A NEW TURN.

The Broadway railroad franchise matter has been carried into court in a manner few suspected, though an intimation of some form of retaliation was printed in this column Monday morning. in a manner few suspected, though an intimation of some form of retaliation was printed in this column Monday morning. This morning Trustee Cox, president of the Board of Trustee, notified all the members of the board that the adjourned meeting would not be held this afternoon, and the railroad matter would not be acted upon until the next regular meeting. This, in view of the developmenta which came to light later in the day, was significant either of extraordinary presidence or a quiet tip, for at about the hour when the adjourned meeting was to have been held a deputy sheriff sought out President Cox and the other members of the board and served on each a wrik which had been issued by Judge McKinley in the Superior Court. The instrument was drawn up by Huinsaker & Stevens, atterners for the Southern California Railroad, and sworn to by William Morgan as plaintiff. It recities the facts of the proceedings in the Board of Trustee Cox as president of the board, to supersede Trustee Lukens, deposed. The allegations made were that these proceedings were all irregular, and on the showing made the court issued a writ enjohing the Trustees from taking any further action in the matter, and commands the defendants to present in court next Monday, the lith inst., a transcript of the record of all proceedings in the board relative to the franchise ordinance until the court dissolves the injunction after hearing argument.

This action practically takes the battle out of the Board of Trustees and transfers it to the courts, where the real belligerants, the Southern Pacific Railroad Company on the one side, and the Southern California Railroad Company on the one side, and the Southern Pacific Failroad Company on the one side, and the Southern Pacific Failroad Company on the one side, and the Southern Pacific from getting the franchise mid the matter will be tested on its legal merits, so that the way in future will be clear. The question now is whether the Southern Pacific Failroad is to come into Pasadena or be kept out e

A notable event occurred at high noon Tuesday at Lake Vineyard, the home of the widow of Don Benito Wilson, former owner of the San Pasqual grant, where Pasadens now stands. The old house was elaborately decorated with smilax and papyrus. The wedding was a quiet one, only immediate friends and relatives being present. The contracting parties were Mrs. Flora Muller of San Francisco, the daughter of the well-known banker. Mr. Reinhart, one of the largest stockholders in the German Savings Bank of San Francisco, and Dr. William S. Hereford, nephew of Mrs. Wilson, Dr. Hereford was a former resident of this place for many years, but left some twenty years ago to pursue his course in medicine at the University of Pennsylvania, where he graduated with the highest honors. After his graduation, Dr. Hereford returned to California and accepted a position as secretary to the San Francisco Board of Health. He afterward took a position in the employ of the Alaskan Fur Company as surgeon on St. Paul's Island, where he remained several years. For the last two years Dr. Hereford has practiced in San Francisco, but owing to his ill health he was compelled to leave his practice and seek refuge in the most glorious climate of Pasadena, where he will now practice. The bride's costume was a handsome yellow satin trimmed with chiffon and real valenciennes lace. Her only ornament, save her own beauty, was a diamond brooch, the gift of the groom. The happy couple left on the next train for Coronado where they will pass their honeymon. HEREFORD-MULLLER.

Persetts, pastor of Friends Church, corner of Raymond avenue and Villa street, was gladly welcomed to his place again last Sunday, after an absence of more than two weeks, on account of severe illness. His New Year's sermon was preached from the conjoined texts, "in the beginning, God," and "Seek ye first His kingdom and His righteousness," During his absence the pulpit was ably filled by Dr. William Nicholson, resident minister in the same church, and Dr. Cooke, a Baptist divine, from Boston, who is spending the winter in Pasadena, and so kindly leaves his pleasant abode at the Raymond Hotel to preach the gospel which he loves, in the different churches in this city. His theme was "Heaven," and his services were highly appreciated by the large audience in attendance, considering the inclement weather. John Henry Douglas, the pioneer evangelist among Friends in the West, who has served his church in that capacity for nearly forty years, has conducted the evening services for two Sundays.

They Would Add Much to Santa Bar bara's Attractions.

SANTA BARBARA, Jan. 8.—(Specia

bara's Attractions.

SANTA BARBARA, Jan. 3.—(Special Correspondence.) Six months ago, during all the drawbacks of one of the driest of dry seasons, Mrs. Dr. Hall courageously set to work to improve the grounds surrounding Grace Church, and, as a result, vigorous shrubs are already lending grace to the spots before so bare, while climbers are beginning to cover the walls. Unity Church, with its well-kept lawn and the climbing vines that are now turning to searlet and crimson, is another sanctuary that is growing beautiful to look upon, but no others of the uptown churches seem to have followed this example. There is no improvement that would so add to Santa Barbara's attractions as the cultivation of her school grounds, and of the bits of land about her churches.

By the way, your correspondent has lately been furnished a list, prepared by L. B. Blochman of Santa Maria, which is a valuable one to present for the use of those who have in view the adorment of public grounds or the planting of road-side trees. Mr. Blochman is the husband of a lady famed throughout the county for her botanical discoveries, and he has done much experimental planting upon his own land. He it is who, as a member of the school board, has o successfully laid out the grounds surrounding the Santa Maria graded-school house, which have no rival in the county. Mr. Blochman remarks that it is not so easy as people think to hit upon the right selection of trees and shrubs, even here in Santa Barbara county, where the gardener has so many advantages. Some trees require an excessive quantity of water, which is rarely to be commanded in public places; others perish from the least neglect; still others are subject dio various blights and insect pests.

He recommends, among evergreen trees, the peppers, Monterey pines, acacias, guns and cypresses, as the hardiest, requiring the least audient, and the most rapid growers he finds to be the California fan palm and the draceans (Australian palms,) the date palms and many others being very slow than tho

heridest palms and the most rapid growers he finds to be the California fan palm and the dracenas (Australian palms.) the date palms and many others being very slow growers, and much more sensitive to frost than those first mentioned.

This comes, of course, by way of general advice. With a sufficient stock of these species to insure some degree of success, experiments in other directions may be safely tried.

By the way, what has become of our street-planting movement, which was to beautify our naked highways and byways? The ground has been thoroughly soaked by recent rains, and now is the time to begin, if we would accomplish anything this season. Why will some one not inaugurate in Santa Barbara the pretty custom of an "arbor day," when every able-bodied citizen shall be expected to plant a tree, and all the women and children shall turn out to help, and to furnish coffee and sandwiches to the toilers? If all would but join hands in this enterprise, it would not be long before our streets would resume their oid-time beauty.

For exchange (or to trade,) good clear inside Los Angeles city property and good clear intrigable Los Angeles county land for good Chicago property, vacant lots, clear or only slightly incumbered proferred, or we will sell on long time. MEETING OF THE SANTA ANA TRUSTEES.

A Short Session of the Beard of Su-pervisors—Considerable Routine Business Disposed of— News Notes.

SANTA ANA, Jan. 8.—(Special Correspondence.) The City Trustees met Monday evening for the first time in the new year, and after the transaction of some other business, made a good start in the line of progress and prosperity to the general business injerests of the city by asking for plans and specifications for an extensive electric lighting system for the city, to be owned an controlled by the municipal government. All members were present with the exception of Edinges, and after the usual routine opening the meeting was passed the board got down to business when the following matters were considered:

The petition of George W. Ford et al., asking the board to order down a cement sidewalk along the south side of Fourth street, between Birch and Doss streets, was read and granted.

The petition of C. F. Parker et al., asking that a crosswalk on Fourth street, across from the street across the street.

The petition of C. F. Parker et al., asking that a crosswalk on Fourth street, across from the street-car barn, and at the corner of Fourth and Olive streets be but down, was referred to the Committee on Streets with power to act.

The petition of F. W. Burgess et al., asking that a cement sidewalk six feet wide, on the north side of Fourth street, from Main street to the Santa Fe depot, was read and laid over to the next meeting.

rom Main street to the Santa Fe depot, was read and laid over to the next meeting.

The City Attorney was instructed to serve the proper notices on all parties who have been ordered to put down cement sidewalks, and have not done the same.

The monthly reports of the City Recerder, County and City Tax Collector, Street Superintendent and City Clerk were read and ordered filed.

The report of the committee to the effect that the grounds offered by the Birch estate were too small and that the city was not able to maintain more than one good park, was read and accepted and the committee discharged.

The report of the Committee on Lighting of the City to the effect that it would be advisable for the city to put in its own electric-light plant, was read and accepted and the committee was continued with power to procure plans and specifications, of a system to cost from \$\$900 to \$12,000.

C. M. Holmes, president of the Santa Ana Gas and Electric Light Company, had previously formulated a proposition offering to furnish the city thirty are lights for \$150 per month. This proposition was read, but not favorably considered by the board.

Sealed bids for one steam water-heater and purifier were received from the Acme Iron Works, Baker Iron Works, Machinery Supply Company, Orane Company and Santa Ana Mechanic and Foundry Company. The bids were referred to the Committee on Fire and Water with power to act.

Ordinance No. 199, creating a public pound, and relating to the management thereof, was read for the second time and passed.

thereof, was read for the second time and passed.

The demands of S. Hill, M. B. Monaghan and A. S. Dunham, assessments paid on property condemned for the opening of North Sycamore street, were referred to the Sycamore Street Commissioners.

The matter of making the Reuter winery pay a city license was referred to the City Attorney.

Resolutions Nos. 48 and 49, ordering down an eight-foot cement sidewalk on the north and south sides of Fourth street from Birch to Ross streets, was passed.

The board adjourned to Monday evening, January 14.

SANTA ANA BREVITIES.

The fact that the new Board of Supervisors has appointed a committee to confer with the City Trustees in the matter of working the constant stream of hobes that has been pouring into the city recently, and the further facts that the City Trustees have asked for plans and specifications for an electric-light system to cost from \$8000 to \$12,000, and the Supervisors have ordered three bran-splinter new road graders from the North, looks like Santa Ana and Orange county proposes to get a move on themselves during the year 1895. Let 'er move, is the advice given by every enterprising resident of the city and county.

Mrs. Linn L. Shaw and, Mrs. Ed Tedford gave a very pleasant Kensington teaparty this (Tuesday) afternoon at the home of the latter, to a score or more of their lady friends. Thursday afternoon they will give a reception at the same place to half a hundred or more of their friends and "hearts" will be the order of the programme.

The Placentia Fruit-growers' Association has decided to build a large warehouse in Fullerton. This one will make the sixth warehouse that has been built in that enterprising town the past few years. There is probably no other town in Southern California of its size that does as much shipping as Fullerton.

Thomas McKeeyer, the Wells-Farse agent in this place, received the sad newstoday of the death of his mother-in-law, Mrs. Devian, of Los Angeles.

About fifty genuine hobos held high carnival down around the railroad depots Monday night. They had been looking upon the wine when it was red, and, as a

dispersed by the officers, the greater purtion of the crowd going in the direction of Orange.

A marriage license was issued today (Tuesday) to Frank Cutter, aged 39 years, of Santa Monica, and Allenette Cutter, aged 22 years, of Les Angeles. After the license was obtained Justice of the Peace Freeman was hunted up and the matrimonial knot was tied.

The hearing upon the writ in the case of Van Vieck vs. the Dental Beard of Esaminers et al., has, at the request of defendants and in the furtherance of justice been continued to January 18, 1895.

Miss Harriet Finston departed Monday night on the steamer Corona from Newport for Oakland to visit for several weeks with friends and relatives.

The Santa Ana football team will go to Whittier Saturday of this week to play a return game with the team of that place. James Buckley and wife left today (Tuesday) for Indie to visit for a tew weeks with Mrs. Marshall, Mrs. Buckley's sister.

Mrs. Francis Holden departed Monday as San Francis et a resume her work in terms.

RIVERSIDE COUNTY.

THE NEW SUPERVISORS TAKE THEIR SEATS.

All the Members with One Exception Served with Notice of Contest— The Business of the Old

RIVERSIDE. Jan. 8.—(Special Correspondence.) The final meeting of the old Board of County Supervisors and the initial session of the incoming board yesterday were busy ones, and a large amount of business came before each. The first business of the retiring board was to albusiness of the retiring board was to al-low a number of claims that had been held fo rexamination, and to rescind two that were duplicates. A road from Casa Loma south was declared a public highway. A new school district, named Ramson, was formed. The claims of deputies for re-muneration for services were considered, but not allowed, as the District Attorney had reported adversely to such action, holding that the upervisors would be re-sponsible individually for the amounts allowed.

As the hour at which the existing board was to be displaced by a new body of men drew near, M. Hoover, one of the four to though all save Chairman White were unused to county business all had acted with sincere regard for the best interest of the county and without selfish motives, and asked that the acts done amiss be covered with the mantle of charity. He knew that accusations had been made against the board during the very heated campaign, that would not be said in more sober times. The old board left enough money in the treasury to meet all claims, notwithstanding the newness of the business to the members and the unusua Idemands upon it made necessary in reorganizing a county. He closed with a goodby to the old and a welcome to the new members.

Chairman White realist with a few

panising a county, he closed with a goodhy to the old and a welcome to the new
members.

Chairman White replied with a few
words of thangfulness for the courteous
treatment accorded him by the members
of the board and the pride in the good
record made. He criticized the conduct of
conduct of the County Auditor for refusing to audit a number of claims ordered
paid by the Supervisors.

The minutes were read, and the new
members of the board entered, followed
by a large number of curious spectators.
Upon adjourning each of the retiring members, except M. Hoover, served upon his
successor the following notice, the legality
of the election being questioned as respects the Supervisors and osme other
officers:

"I hereby notify you that I claim and

of the election being questioned as respects the Supervisors and osme other officers:

"I hereby notify you that I claim and reserve the right to try in any lawful proceeding your title to the office of Supervisor, (number of district) of Riverside county, and to test in the same manner your right to hold said office and to exercise and asume the duties thereof." (Signed)
"Riverside, Cal., Monday, 12 o'clock, noon, January 7, 1885."

The new board organized by electing John Shaver chairman and at once the action of the old board in allowing claims 1 to 262 on the unapportioned fund, 50 and 51, on the hospital fund, 1, 2 and 3 on the immigration fund and 468 on the general fund, A. S. White voting "no." The action was taken in order to ascertain the right of the county to pay them, the Auditor faving refused because of the money in the respective funds having been exhausted. In the afternoon a large number of petitions were presented by applicants for office. The District Attorney was asked to bring in a written opinion as to the legality of the act for paying back cants for office. The District Attorney was asked to bring in a written opinion as to the legality of the act for paying back claims. The tramp question was discussed and the Sheriff instructed to continue wroking vagrants already committed. The matter will come up again on Wednesday. One of the most important matters considered was the appointing a committee of three to confer with the District Attorney in drafting a saloon license ordinance in accordance with the wish of a majority of the people as expressed at the polis, the prohibition ordinance having been defeated. On the commotitee was placed Supervisor Edminston, a Prohibitionist in belief, who protested until he found the board unanimous for him to be retained upon the committee.

This morning the board met and counted the cash in the county treasury and then adjourned.

OLD AND NEW SUPERVISORS. oLD AND NEW SUPERVISORS.

At 12 o'clock noon yesterday the four of the five County Supervisors of Riverside county vacated their places, and four new men now occupy them. The retiring members are S. A. Stewart, F. L. Loveland, M. Hoover and W. G. McVicker—three Republicans and one Democrat. They are succeeded by three Populists—Messrs. John Shaver, A. Compton. J. M. Edmiston and H. C. Thompson. The four retiring men were all prominent business men and ranchers of the county, but unfamiliar with the business of legislating for the government of a county. A. S. White, also a Republican, was conversant with county business, having been an active member of the Board of Supervisors when this region formed ap art of San Bernardino county, is the only hold-over member. The four new men are all of quite different political faith, all being People's party men. They are all recognized men of ablity as farmers and merchants, but scarcely any more familiar with the duties of a County Supervisor than were their predecessors. A. S. White was chairman of the last board, and by reason of his knowledge of the business he was the logical candidate for the same place in the new board. He wasm ade temporary chairman, but when the board was organized John Shaver was made chairman, the vote being by hallot, and he receiving four of the five votes cast. The first work of the new board, after completing its organization, was to rescind some of the actions passed by the old board, and this has caused the question to be propounded: "Are the new Supervisors to be radical Populists, tearing down instead of building up?" As this is the distributed in the State, so far as known here, having as large a percentage as four-fifths of its members Populists, the character of county government. which they shall institute is a matter of deep interest, and among those most radically opposed to the principles of this party are predictions of dire calamity to the county.

RREST OF JAILER BROWN AND TABER

Caused but Little Comment as it was Generally Expected that it Would Take Place-Bedlands Kickers.

SAN BERNARDINO, Jan. 8.—(Special Correspondence.) The arrest of Newton Brown within a few hours after the expira-tion of his term of office as Jailer of this county, and of G. F. Taber, his turnkey, by United States Marshal N. C. Covarrublus yesterday afternoon upon a bench warrant issued by Judge Ross has caused no very great excitement, for the reason that it was known by about every one herethat he had permitted United States prisoners to go at large as "trustles," and was
liable to arrest for this conduct. As both
Mr. Brown and Mr. Taber knew that they
had been indicted neither were they surprised. They expected the officer. After
the papers were served they word until 7
a.m. today, when they appeared at the
Stewart and at 7:25 took the train for Los
Angeles in the custody of the United
States Marshal. At noon today Deputy
United States Marshal E. F. Pourade went
to Los Angeles with the bonds of Brown
and Taber. The bonds had been fixed at
\$2500, and were secured without difficulty.
Upon the bond of Newt Brown are the
names of S. Livingston, J. B. Frith and
are C. D. Dickey and J. C. Ralphs.

Ex\_Jailer Brown explains the course pursued by him by stating that Harry Johnson, at that time a deputy United States
Marshal and secretary to Marshal Covarrubius, had written Brown at the time
of the committenent, instructing him to
be as lenient as possible with the prisoners, and prominent citizeus had also asked
the same favor respecting the prisoners,
there being much sympathy in this city
for them. Although some of the prisoners
were parmitted to spend most of their
micro of the pail none of them had ever
abused the confidence bestowed upon them.

Mr. Johnston has been a sojourner in that city under the soft Italian skies and gave many interesting reminiscences of 'the place. He awarded the palm of moral greatness to Michael Angelo, whom he held to be great in all things—great in painting, in sculpture, in architecture, in poetry, and, above all, in his own manhood. Another of the great drawbacks to San Bernardnio's prosperity has been done away with in the completion of the Stewart Hotel. There has never before been a first-class hotel in this city. COLTON.

COLTON, Jan. 7 .- (Special Correspon dence.) Yesterday morning a man answering to the description of the red-headed one of the twain who robbed the Ontario bank on Friday, appeared in this city and hired a horse and buggy, explaining that he had clew that might lead to the arrest of the robbers and wanted to get to San Bernardino quickly in order to catch the Santa Fe train. He drove about through Colton and went south instead of north toward San Bernardino, and nothing has been heard of him or the buggy since. Where he went is still a matter of speculation.

ONTARIO. ONTARIO, Jan. 8.—(Special Correspondence.) Sundry and miscelleneous groups of learned gentlemen still gather on the street corners and discuss the bank robbery. Theories innumerable are advanced as to the location of the burghars, but it is a notable fact that nobody is now making an effort to catch the miscreants. The an effort to catch the miscreams. The latest phase is the finding of the tail robber's whiskers. No telphone messages were sent in, so nothing more was thought of it until yesterday afternoon word came to the city that J. C. Coakley's large general merchandise store at the corners had burned to the ground. The explosion that alarmed the neighborhood for miles around was caused by the blowing up of some forty or fifty pounds of powder and cartridges kept in stock, besides a large quantity of gasoline stored in the building. It is supposed mice and matches started a blaze which in a few minutes attacked the explosives with the result of tumbling the building and breaking any quantity of window glass in the vicinity. No one was hurt, but the store was completely destroyed.

Besides the accident theory it is said openly that tramps who infest the neighborhood are responsible for the fire. verberation that told them something had

charged from custody in the Folice Court yesterday. Jose Luna, just released from the County Jail, was taken up by Detective Auble yesterday on an old complaint for petty larceny. The complaint was worn out by L. D. Rogers and was filed December 28. In it Rogers alleges that Luna stole a number of small articles from A. Hamburger & Sons, December 21, 1894.

#### Drugged and Robbed.

Drugged and Bobbed.

A young traveling man for a San Francisco house was drugged and robbed in a Main-street bagnie early yesterday morning by a couple of men, evidently kept for that purpose. He lost about \$75 and some small jewelry. A peculiarly-made gold watch and a tight ring were not taken from him.

He recovered his senses in a room down on South Spring street, and, though he knew the frouse, he declined to cause any arrests or prosecutions, being ashamed of publicity, and glad to get off so easily. He says he won't go there any more. This illustrates to the verdant rural youth one of the pitfalls even an accomplished knight of the road will fall into.

YOUNG, THE WIFE-BEATER. The Fellow Convicted in Short Order

Thomas Lewis Young, the person tried in Justice Morrison's court yesterday for battery on the person of his wife, New Year's night, was found guilty as charged, and will be sentenced at 12 o'clock to-

and will be sentenced at 12 o'clock today.

The court officials say this Young is the
most detestable fellow they have bad to
deal with for many a day.

Not only was it proven that he had
brutally beaten her, smashing her body,
but it has been shown that he had used
up most of the poor woman's money.

Then in court the fellow, to shield himself and ruin her reputation, told the
most revolting and devilish tales he dared
to, to impeach her testimony and dishonor
her name.

to, to impeach her testimony and disnostriber name.

Associate Counsel Rush for the people showed up the fallacy of Young's testimony, and denounced him as a perjure. He offered Justice Morrison any amount of testimony in refutation, but His Honor said he had heard enough, and found the defendant guilty as charged.

SEA AT THE SUMMIT OF THE SEA AT THE SUMMIT OF THE GREAT CABLE INCLINE.

The Echo Mountain House is the finest and best-equipped mountain hotel in the world, and is second to none of the world-famed hotels of Southern California. In location it has no equal being immediately overlooking the San Gartel Valley, with mountains, foothills, devo-verdant valleys, towns, villages, Old Mission, sea beach, shipping, islands and ocean fine fill view. The climate is delightful, both winter and summer. It is never hot and over cold. On the verandas there are always cool bresses in summer, and in winter it is warmer than in the valley below. The sunrises and sunsets witnessed from its porches and verandas equal in splendor the most gorgeous displays pictured by European visitors. An additional attraction is the Lowe Observatory, presided over by the eminent astronomer, Dr. Lewis Swift. Other attractions within easy reach of Echo Mountain House are numerous and will take days and even weeks to explore them, and no visitor should spend less than one day and night on these mountains—where more enjoyment can be had in the same time than in any other spot on the globe—to witness the gregous sunset and surrise; the cities of Los Angeles and Pasadena below, with their thousands of electric lights glimmering like an immense lake of diamonds; the operation of wild animais that inhabit the Sierra Maire Mountains. Rates no higher searchilghine in the world; also the fine scolestion. See time-table. A well-acupped livery stable at Altadens Junction for the accommodation of guests of thouse will receive low-rate commutation tickets over the railway to visit the valley. NEED BE PAID US

## Until We Cure You.

No Security whatever is demanded. We trust to the honor of our patients to pay us when cured, as is customary with all regular and reputable

physicians.

We mean the above statement emphatically—it means everybody, and it is to show our sincerity, honesty and ability to cure these diseases, of which we make a speciality. We have the largest practice in Southern California, acquired by skill and moderate charges. Our Offices are the most elaborate and private in the city, and you need see no one but the doctors. Private entrance on Third street prevents publicity. We make it a part of our business to deal in sacred confidence with our patients. 37 We have abandoned the treatment of all diseases except every form of Private Weaknesses, Unnatural Secretions, Vile Habits and their effects, Blood Taints and Surgical Diseases of Men. We believe that we thereby attain the highest possible degree of success for the speedy, thorough and permanent cure of these peculiar cases. Our experience has taught us that medicines alone will not cure these diseases. Improvement begins at once upon the application of our local treatment. Our book on the nature and treatment of these diseases, together with rules for diet, exercise and sleep sent free on application; also our self-diagnosis sheet and our spinton as to the curability of the case.

Consultation, Examination and Advice absolutely Free.
